Bortskaffelse af elektrisk og elektronisk affald for brugere i private husholdninger i EU.

Elektrisk og elektronisk udstyr samt medfølgende batterier indeholder materialer, komponenter og stoffer, der kan være skadelige for menneskers sundhed og for miljøet, hvis affaldet ikke håndteres korrekt. Elektrisk og elektronisk udstyr og batterier er mærket med den overkrydsede skraldespand. Den symboliserer, at elektrisk og elektronisk udstyr og batterier ikke må bortskaffes sammen med usorteret husholdningsaffald, men skal indsamles særskilt. Som slutbruger er det vigtigt, at du afleverer dine udtjente batterier til de ordninger, der er etablerede.

På denne måde er du med til at sikre, at batterierne genanvendes i overensstemmelse med lovgivningen og ikke unødigt belaster miljøet.

Alle kommuner har etableret indsamlingsordninger, hvor kasseret elektrisk og elektronisk udstyr samt bærbare batterier gratis kan afleveres af borgerne på genbrugsstationer og andre indsamlingssteder eller bliver afhentet direkte fra husholdningerne. Nærmere information kan fås hos kommunens tekniske forvaltning.
